within the community.

The Auxiliary of NorthShore University HealthSystem (NorthShore) at Highland Park Hospital is a volunteer organization that raises funds for and provides services to Highland Park Hospital and NorthShore. It operates within the auspices of the NorthShore Foundation, our leading philanthropic entity. The Auxiliary also promotes health awareness of the Hospital's programs and NorthShore. Within the community, our leading

About The Auxiliary

The Auxiliary at Highland Park Hospital

Raising Funds for an Innovative Diabetes Program

The Auxiliary at Highland Park Hospital has pledged \$1 million to support *Be Well-Lake County*, a diabetes awareness, education, prevention and treatment program in our community

Support The Auxiliary to Help Our Neighbors Live Healthier

We need you! Together we will raise \$1 million for *Be Well-Lake County*. Your charitable contribution will create:

Education Programs for family members of individuals with diabetes—family members are at increased risk for developing diabetes

A **Community Kitchen** and Guest Chef Program at the Lake County Health Department

A **Community Garden** to grow healthy fruits and vegetables for area residents without easy access to grocery stores

Increased Availability to Specialty Care Services for the medically underserved through NorthShore

Research into the most effective ways to prevent and treat diabetes in our community

Invest in a Healthier Community

As part of its mission “to preserve and improve human life,” NorthShore University HealthSystem (NorthShore) and The Auxiliary at Highland Park Hospital are collaborating with the Lake County Health Department to fund this new and innovative diabetes program aimed at empowering and preparing patients to lead healthier lives.

You can help families grow healthier!

Please give generously to support The Auxiliary and *Be Well-Lake County* to create healthy lives for the residents of our community. The need for diabetes education, prevention and treatment is real!
