### **Attention Assessment**

(check all that apply to your child)

- Often fails to give attention to details or makes careless mistakes in schoolwork, work, or other activities
- Often has difficulty sustaining attention in tasks or play activities
- Often does not seem to listen when spoken to directly
- Often does not follow through on instructions and fails to finish school work, chores, or duties in the workplace (not due to oppositional behavior or failure to understand directions)
- Often has difficulty organizing tasks or activities
- Often avoids, dislikes, or is reluctant to engage in tasks that require sustained mental effort (such as schoolwork or homework)
- Often loses things necessary for tasks and activities (i.e. toys, school assignments, pencils, books, or tools)
- Is often easily distracted by extraneous stimuli
- Is often forgetful in daily activities
- Often fidgets with hands or feet, or squirms in seat
- Often leaves seat in classroom or in other situations where remaining seated is expected
- Often runs about or climbs excessively in situations in which it is inappropriate (in adolescents or adults, may be limited to subjective feelings of restlessness)
- Often has difficulty playing or engaging in leisure activities quietly
- Is often “on the go” or often acts as if “driven by motor”
- Often talks excessively
- Often blurts out answers before questions have completed
- Often has difficulty waiting turn
- Often interrupts or intrudes on others (i.e. butts into conversations or games)
