Before You Arrive

Prior to your appointment date it is necessary for you to call our Pre-Registration Department at 847-663-8600 to verify your insurance.

Please complete the enclosed forms in order to help us provide you with the best possible care. **It is important that you bring these COMPLETED forms with you on your first visit.** Please arrive 15 minutes PRIOR to your scheduled appointment time to complete additional paperwork.

Included in this packet are the following questionnaires:

1. **Medical History Questionnaire:** A detailed assessment of symptoms and health conditions.
2. **Pelvic Floor Questionnaire & Sexual Function Questionnaire**
3. **Voiding Diary:** Necessary to complete if you have issues involving bladder control, or urinary symptoms, as it provides a record of your urinary pattern over a 24-hour period.

**Please Keep in Mind**

1. *****Full Bladder:** Please come to your first visit with a partially full bladder, as we may do a voiding study/testing (such as uroflowmetry) at that time. Let the receptionists know if you are uncomfortable on arrival.
2. **Initial Examination:** A comprehensive urogynecologic exam is usually performed on the first visit. If indicated other bladder testing will also be performed (ie urine culture, post-void residual).
3. **Canceling or Rescheduling:** In the event you need to cancel or reschedule your appointment, at any office site, please call 847-570-2750, as soon as possible.
4. **Late Arrival:** In the event you may be late, please call 847-570-2750 and let the office know. We cannot guarantee your visit if you arrive more than 15 minutes late.
5. **Billing Policy:** All billing is handled by the Professional Business Office at NorthShore University HealthSystem. If your insurer requires a co-payment, you will be required to pay this at the time of service. Our office will submit all billing information to the billing office where your claim will be filed. For billing or insurance questions, please contact the billing office at (877) 210-4351 between 8am - 4pm.
6. **NorthShore Connect:** Allows for convenient and efficient e-mail communication between you and the nurses and doctors at our office, and also provides you with computer access to test results and other information. If you’re not already enrolled in NorthShore Connect, please ask the receptionist for login instructions.
About Our Center

Over the past few decades, our center has established itself as an internationally recognized center of excellence in Urogynecology and Female Pelvic Medicine and Reconstructive Surgery – a specialty devoted to female bladder, bowel and pelvic floor conditions.

Our highest priority is to provide you with the most advanced care, in a comfortable and efficient way. We believe that approaching these problems in a comprehensive fashion with a group of specialized nurses and physicians offers the best way to treat your problem. Our commitment to research and innovation allows our patients access to the ‘cutting edge’ of our field, including the latest medications in development and the most recent surgical innovations. We welcome your comments and feedback, as we strive to provide the very best care for these female conditions.

We are also a nationally recognized fellowship training center in our subspecialty of Female Pelvic Medicine and Reconstructive Surgery. The fellows will be an integral part of your care as they assist the attending physicians. The fellows usually will see you along with the attending physician at your first office visit, and often for follow-up visits and office testing.

Our Urogynecologists

**Peter Sand, MD** – Dr. Sand received his Bachelor of Science and Medical Degree at Northwestern University. He took his residency in Obstetrics and Gynecology at Northwestern University and completed a Fellowship in Urogynecology and Pelvic Surgery at the University of California, Irvine. Dr. Sand founded this division and center in 1991, and has directed the Fellowship program. He is a Clinical Professor of Obstetrics and Gynecology at the University of Chicago, Pritzker School of Medicine. Dr. Sand is the recipient of numerous prestigious awards, and has served as President of the International Urogynecologic Association and Associate Editor of the International Urogynecology Journal.

**Roger Goldberg, MD MPH** - Dr. Goldberg completed his Bachelor of Arts at Cornell University and attended Northwestern University Medical School. He received his Masters in Public Health at Johns Hopkins University prior to his residency in Ob/Gyn at Harvard University’s Beth Israel Hospital. Dr. Goldberg is the Director of Urogynecology Research, and Associate Clinical Professor of Ob/Gyn, University of Chicago. He has received awards from the Society of Gynecologic Surgeons, American College of Obstetricians and Gynecologists, International Continence Society and International Urogynecology Association (IUGA). Dr. Goldberg is the author of numerous articles and two books on Urogynecology and pelvic floor disorders.

**Sylvia Botros, MD** – Dr. Botros received her medical degree from The University of Texas Health Science Center and completed her residency in Obstetrics and Gynecology at the Lyndon B Johnson Hospital in Houston, TX. She completed her fellowship program in Urogynecology and Pelvic Reconstructive Surgery at Northwestern University, Feinberg School of Medicine, during which she has authored several scientific publications and presented at numerous national and international meetings. Dr. Botros has also received a Masters degree in Clinical Investigation from Northwestern University School of Public Health.

**Janet Tomezsko, MD** – Dr. Tomezsko completed her Bachelor of Science at Penn State University before attending Hahnemann University in Philadelphia, PA. She completed her residency training in Obstetrics and Gynecology at Lehigh Valley Hospital in Allentown, PA. She completed her fellowship in Urogynecology at Northwestern University in 1997. Dr. Tomezsko was Chief of Urogynecology at Northwestern Medical Faculty Foundation until joining NorthShore Urogynecology in 2009. Dr. Tomezsko has published several scientific articles, and has given many lectures throughout the country in the field of urogynecology.
Karen Sasso, RN, APN – Karen is a Clinical Nurse Specialist who provides expertise in the areas of urodynamics testing, electrical stimulation and biofeedback. She has been with the center since 1991 and sees patients independently for testing, treatments, and follow-up.

Urogynecology Fellows – Our care team includes three fellows in Urogynecology and Reconstructive Pelvic Surgery. Each of these physicians has completed his/her residency in Obstetrics and Gynecology, and is devoting an additional 3 years to subspecialty training within our division. It is likely that a fellow will be involved as an assistant with your care in the office, and also in the hospital if you choose to undergo surgery.

Name ________________________ Date of birth: __________________ Date ________________

**PLEASE PROVIDE THE NAME, ADDRESS, AND OFFICE NUMBER OF YOUR PRIMARY CARE PHYSICIAN AND YOUR GYNECOLOGIST:**

PCP:               GYNECOLOGIST:
Name ___________________________ Name ________________________
Address _________________________ Address ______________________
Phone _________________________ Phone _________________________
Fax _________________________ Fax _________________________

** Which of the above physicians referred you to our office? ________________________

Please describe ‘in your own words’ the nature of your gynecologic or urologic problems.
______________________________________________________________________________
______________________________________________________________________________
______________________________________________________________________________
______________________________________________________________________________

What are the main reasons for your visit?
*(please check all that apply, and underline the one problem that bothers you the most)*

☐ Urinary leakage with cough/sneeze/exercise
☐ Urinary leakage when you feel the need to get to the bathroom
☐ Frequent urination
☐ Frequent urination at night
☐ Bladder infections
☐ Unable to empty bladder
☐ Vaginal bulging -- dropped bladder/uterus/rectum
☐ Pelvic pain
☐ Vaginal or vulvar pain
☐ Painful urination
☐ Interstitial cystitis
☐ Constipation, or other difficulties having bowel movements
☐ Loss of bowel control

Other (please describe) __________________________________________________________

How long has this problem bothered you?__________________________________________

What treatments or evaluations have you had in the past for this problem? ______________

What is your main goal in seeking help for this problem?
______________________________________________________________________________

During an average day, how often do you urinate? _________________________________

During an average night, how often do you get up to urinate? ___________________________

During an average day, how many pads or diapers do you use? _________________________
How often do you experience urine leakage (incontinence)?
0 - never
1 - less than once a month?
2 - one or several times a month
3 - one or several times a week
4 - every day/night

How much urine do you lose each time?
1 - drops/little
2 - more

ALLERGIES
Do you have any drug allergies?  Y  N
Please list which drugs you are allergic to and what happens when you take them.

MEDICAL HISTORY
As a Child did you have:

- [ ] Bladder infections
- [ ] Kidney infections
- [ ] Other _______________________

As an Adult have you had (please circle):

Heart Disease [ ] Reflux / GERD [ ] Depression
High Blood Pressure [ ] Liver Disease [ ] Serious Injury / Accident
Diabetes [ ] Stomach / Duodenal Ulcers [ ] Paralysis
Anemia [ ] Kidney Disease [ ] Back Problems
Thyroid Disease [ ] Frequent Bladder Infections [ ] Glaucoma
Blood Clots [ ] Kidney / Bladder Stones [ ] Anxiety disorder
Stroke [ ] Multiple Sclerosis [ ] Parkinson’s Disease
Chronic Cough / Asthma [ ] Psychiatric Illness [ ] Gonorrhea
Pneumonia [ ] Seizure Disorder [ ] HIV
Gonorrhea [ ] Chlamydia [ ] Herpes
Venereal warts [ ] Abnormal Pap Smears [ ] Syphilis

Cancer: If yes, what type __________________ What type of treatment________________
Other ____________________________________________

SURGICAL HISTORY
Have you had a Hysterectomy?  Yes  No
If yes: For what reason? __________________ At what age? __________
What type of incision?  [ ] Abdominal  [ ] Vaginal  [ ] Laparoscopic

Have you had your ovaries removed?  Yes  No

Have you had any previous surgery for incontinence?  Yes  No
Type and Date: ____________________________________________

Have you had any previous surgery for pelvic relaxation / prolapse?  Yes  No
Type and Date: ____________________________________________

Please list any other operations you’ve had, and the year that it was performed:
_______________________________________________________________________
_______________________________________________________________________
_______________________________________________________________________
FAMILY & SOCIAL HISTORY
Have any first degree relatives had these diseases? If so, please indicate their relationship to you.
High Blood Pressure __________________ Diabetes __________________
Stroke _____________________________ Heart Disease __________________
Cancer (please list type) __________________ Ovarian Cancer: __________________
Breast Cancer ________________________ Kidney Disease ______________________
Blood / Clotting Disorder ______________ Osteoporosis _________________________

SYMPTOM REVIEW: Please circle any symptoms you’ve had in the past few months:

General Symptoms
Fever or Chills
Headache
Weight loss/gain >10 pounds

Endocrine
Intolerance to hot/cold
Excessive fatigue

Skin
Rash
Easy bruising

Respiratory
Breathing difficulties
Shortness of breath
Wheezing

Neuro / Muscular
Sleepiness or weakness
Dizziness
Weakness

Gastrointestinal
Involuntary loss of stool
Constipation
Diarrhea

Gynecologic
Breast pain or lump
Hot flashes
Vaginal bleeding
Vaginal discharge

Psychiatric
Depression
Worsening moods
Anxiety
Difficulty remembering

Hematologic / Allergy
Clotting problems
Prolonged bleeding

Cardiovascular
Chest discomfort or pain
Shortness of breath with exertion
Swelling of legs

Eyes/Ear/Nose/Throat/ Mouth
Dry mouth
Dry eyes
Patient Name: __________________________________________________________________

Date of birth: ___________________________ Date: _____________________

**Pelvic Floor Distress Inventory Questionnaire**

Please answer all of the questions in the following survey. These questions will ask you if you have certain bowel, bladder or pelvic symptoms and if you do how much they bother you. Answer each question by putting an X in the appropriate box or boxes. If you are unsure about how to answer, please give the best answer you can. While answering these questions, please consider your symptoms over the **last 3 months**.

NorthShore University HealthSystem - Urogynecology & Pelvic Health Centers (11/28/11)
Sexual Function Questionnaire (PISQ-12)

The following are questions about you and your partner’s sex life. All information is strictly confidential.

a. Have you had sex in the last 6 months?  Yes  No
   If yes, please answer the questions according to your current experience.
   If no, please answer questions according to the last year you were sexually active.

b. If you are not currently sexually active, at what age did you stop activity?______
   Why are you not currently sexually active? (Circle one or more of the following)
   Incontinence  Vaginal prolapse  Fear of incontinence
   Bladder pain  Vaginal pain  Burning
   Urinary urgency  Lack of desire  Chronic illness
   Partner’s impotence  Stressful situation at home  Fatigue
   Partner’s lack of desire  No partner  Lack of privacy
   Other____________________

1. How frequently do you feel sexual desire? This feeling may include wanting to have sex, planning to have sex, feeling frustrated due to lack of sex, etc.
   Daily  Weekly  Monthly  less than once a month  Never

2. Do you climax (have an orgasm) when having sexual intercourse with your partner?
   Always  Usually  Sometimes  Seldom  Never

3. Do you feel sexually excited (turned on) when having sexual activity with your partner?
   Always  Usually  Sometimes  Seldom  Never

4. How satisfied are you with the variety of sexual activities in your current sex life?
   Always  Usually  Sometimes  Seldom  Never

5. Do you feel pain during sexual intercourse?
   Always  Usually  Sometimes  Seldom  Never

6. Are you incontinent of urine (leak urine) with sexual activity?
   Always  Usually  Sometimes  Seldom  Never

7. Does fear of incontinence (either stool or urine) restrict your sexual activity?
   Always  Usually  Sometimes  Seldom  Never

8. Do you avoid sexual intercourse because of bulging in the vagina (either the bladder, rectum or vagina falling out?)
   Always  Usually  Sometimes  Seldom  Never

9. When you have sex with your partner, do you have negative emotional reactions such as fear, disgust, shame or guilt?
   Always  Usually  Sometimes  Seldom  Never

10. Does your partner have a problem with erections that affects your sexual activity?
    Always  Usually  Sometimes  Seldom  Never

11. Does your partner have a problem with premature ejaculation that affects your sexual activity?
    Always  Usually  Sometimes  Seldom  Never

12. Compared to orgasms you have had in the past, how intense are the orgasms you have had in the past six months?
    Much less intense  Less intense  Same intensity  More Intense  Much more intense
Voiding Diary Instructions

Please complete the following diary if you have any of the following problems:

- Urinary leakage (‘incontinence’)
- Frequent urination
- Frequent nighttime voiding
- Sudden urges to urinate

INSTRUCTIONS:

The chart printed on the next page will allow you to provide a record of your voiding (urinating) and leakage (incontinence) of urine.

Please choose a 24 hour period to keep this record when you can conveniently measure your voids. If you are unable to keep the diary for a 24-hour period, try to keep it for as many hours as possible, say from early evening when you get home from work until you get up the next morning.

Record the time of all voiding, leakage, and intake of liquids. Include all voids, even if they occur in the middle of the night.

Measure all intake and output in ounces or mL (30 mL = 1 oz) (1 cup = 8 oz = 240 mL). You can use a standard 1-cup measuring device and label your volumes in ounces or milliliters. You may, of course, discard the measured urine after each void. Describe activity you were performing at the time of leakage. If you were not actively doing anything, record whether you were sitting, standing, or lying down.

Estimate the amount of leakage according to the following scale:

0 = no leakage
1 = damp, few drops only
2 = wet underwear or pad
3 = soaked or emptied bladder

If the urge to urinate accompanied (or preceded) the urine leakage, write “Yes”. If you felt no urge when the leakage occurred, write “No”.

EXAMPLE:

<table>
